The Vexxer

London, quite some time ago... on foggy side-treets hustlers and streetwalkers conduct their ever so shady business. Every cup of tea just might be your last – That is if it weren't for Chief Inspector Even Longer (Oliver Kalkofe) and his faithful partner, Inspector Very Long (Bastian Pastewka). And ever since these two Scotland-Yard-Superheroes locked up the Trixxer three years ago, life in the capital of crime has become just a little bit safer... and as is with the weather, real Londoners don't complain...

...just like any other day, they are playing Bingo or getting into fights over the best lounge chairs at the beach in Mallorca, not suspecting that the danger of kicking the bucket early has increased again dramatically... as the Trixxer has returned!

The villain has produced a list with the names of his future victims. A list that Long and Longer are holding in their sweaty palms. On this list, they find well-known names such as Inspector Long who seems to be scheduled to meet his maker within the next 24 hours... As is Ms. Victoria Dickham (Christiane Paul), the beautiful love-interest of Chief Inspector Longer and the daughter of the legendary Ex-Head of Scotland Yard, Lord David Dickham (Joachim Fuchsberger). And since corpses are starting to fill quickly the spacious morgue of Scotland-Yard's head of forensics, Dr. Brinkman (Oliver Welke), everyone knows that the Trixxer is "dead-serious"...

Long and Longer embark on a dramatic race against time. They have to uncover the identity of the new Trixxer – and if possible, before his murderous plan succeeds. Unfortunately, they don't have a single clue!
